AI / Computer Vision Engineer – Edge AI for Industrial Safety & Fall Detection

EDUCATION

B.S. in Computer Science | Major in Artificial Intelligence
Chungbuk National University (CBNU)

Mar. 2023 – Feb. 2027 (Expected)
Cheongju, South Korea

High School Diploma
Academic Lyceum of Samarkand

Sep. 2017 – Jul. 2019
Samarkand, Uzbekistan

WORK EXPERIENCE

Undergraduate Research Intern

Data Analytics Lab (DaLab), Chungbuk National University

Sep. 2024 – Present

Cheongju, South Korea

- Built AI-COMS, a real-time multi-camera safety system (YOLOv8/v11, TensorRT, React); resolved concurrency bottlenecks and compressed models (42MB → 7.8MB), improving FPS by up to 92%
- Designed a Pose Estimation + TCN + BotSort fall-detection pipeline and deployed models via TensorRT to Jetson edge devices; Undergraduate Lab Intern Scholarship recipient, 3 consecutive semesters

Sales & Service Specialist

HUMANS.uz

Nov. 2020 – Apr. 2021

Tashkent, Uzbekistan

- Assisted customers with mobile and fintech services, processed payments, and resolved service issues

PROJECTS AND RESEARCH

MobiCare – Edge AI Fall Detection System | YOLO11n-pose, ST-GCN

ICCAS/EKC 2026 – Team Leader, AI Engineer; poster presented at both

Jul. 2026

Toulouse, France

Worker Abnormal Behavior Detection | YOLO11s-pose, ByteTracker

Personal Project – rule-based fall/unsafe-running/inactivity detection, 93.07% avg. accuracy

Jun. – Jul. 2026

IDCool – Smart Customer Care & Monitoring Platform | Flutter, FastAPI

Graduation Capstone Design – Mobile Developer

May 2026 – Present

AI Smart Crosswalk System | YOLOv8, Pose Estimation

SP!ED 2025 – Team Leader, AI Developer, team “One Asia”

Jul. – Aug. 2025

Zhenjiang, China

Voida – AI Shopping App, Visually Impaired | Kotlin, Qwen2.5-VL

Chungbuk National University coursework project

Apr. – Jun. 2025

Tartib AI – Telegram Bot & Mini App | Python, LLM, STT

Personal product – 300+ users within 2 days of launch

Feb. 2026 – Present

HONORS AND AWARDS

Silver Award – MobiCare

5th Intl. Collegiate Challenge for AI-Assisted Society (ICCAS 2026)

Jul. 2026

Toulouse, France

Chungbuk-type K-International Student Scholarship

Chungbuk National University RISE Project, K-International Student Center

2025 Fall & 2026 Spring

Gold Award – AI Smart Crosswalk (as Team Leader)

13th Summer Program for Innovative Engineering Design (SP!ED 2025)

Aug. 2025

Zhenjiang, China

LEADERSHIP AND ACTIVITIES

Founder, Team Lead & Project Manager

Startup Club, CBNU RISE Program

Apr. 2026 – Present

Advisor for Foreign Freshmen

CBNU Office of International Affairs

Feb. 2025 – Jul. 2025

SKILLS

Languages: Uzbek (Native), Russian (Fluent), Korean (TOPIK 5), English (Business Intermediate)

AI / CV: Python, PyTorch, YOLOv8/v11, Pose Estimation (ST-GCN, TCN), OpenCV, TensorRT, CUDA

Backend / Web: FastAPI, Django REST Framework, Flask, MySQL, React, Flutter, Kotlin, HTML/CSS/JS

Infra / Tools: Jetson Orin Nano/NX, Linux, GPU server setup, Git/GitHub, Claude Code, Codex
